

GHL Workflow — Step by Step

How to build the automation that receives leads from indypropertyguide.com, tags them, delivers the right PDF, and starts a nurture sequence.

Time: ~45 minutes for the first build, ~5 minutes per extra guide after that.

Read this first — one critical thing

Every form on the site posts to the same webhook URL:

```
https://services.leadconnectorhq.com/hooks/i0T1nopTL5CnKPq44zFI/webhook-trigger/b82bea0a-88fa-4cd5-9ad5-9fa3f05e7d50
```

That includes **both**:

FORM TYPE	WHERE	SENDS LEAD_MAGNET ?
Lead-magnet forms	the 4 /resources/ pages	✓ yes
Sidebar contact forms	200+ city / county / service pages	✗ no

So **one workflow receives both kinds of lead**. The whole design below hangs on branching:

lead_magnet present = someone downloaded a guide. **lead_magnet** empty = a general enquiry.

Get that branch right and everything else is straightforward.

⚠ **About the webhook URL:** GoHighLevel *generates* this URL when you create an Inbound

Webhook trigger — you can't type in your own. So:

- If a workflow already owns the URL above → **edit that workflow**, don't make a new one.
- If nothing owns it (it was deleted, or never finished) → you'll create a new workflow, GHL will give you a **different** URL, and **the site code has to be updated to match**. Send me the new URL and I'll update it everywhere in one commit.

Step 0 — Find out if it's already live (2 minutes)

Before building anything:

1. Go to <https://indypropertyguide.com/resources/central-indiana-buyers-guide/>
2. Fill the form with your own name and email. Submit.
3. In GHL, check **Contacts**.

WHAT YOU SEE	WHAT IT MEANS	GO TO
Contact appears and you get an email	Fully built	Nothing to do — just add branches for other guides
Contact appears, no email	Webhook works, delivery missing	Step 4
Nothing appears	Webhook is dead	Step 1 (and send me the new URL)

Step 1 — Create the workflow and capture the payload

1. GHL → **Automation** → **Workflows** → + **Create Workflow** → **Start from Scratch**
2. Name it: `Website Leads - Master`
3. Click **Add New Trigger** → **Inbound Webhook**
4. GHL shows you a **Webhook URL**. ⚠️ **Copy it**. If it does *not* match the URL at the top of this doc, send it to me — the site needs updating or nothing will arrive.
5. Leave this screen open. GHL is now listening.
6. In another tab, **submit the form again** on the buyer's guide page.
7. Back in GHL, click **Fetch Sample Request / Auto-detect**. Your submission appears.

This step is not optional. GHL can't map fields it has never seen. If you skip it, every field dropdown later will be empty.

Step 2 — Create the custom fields

GHL has `first_name`, `last_name`, `email` and `phone` built in. These three it does not:

Settings → **Custom Fields** → **Add Field** (all type *Single Line Text*, object *Contact*):

FIELD NAME	KEY
Lead Magnet	<code>lead_magnet</code>
Source Page	<code>source_page</code>
Interest Type	<code>interest_type</code>

Step 3 — Create or update the contact

Back in the workflow, + → **Contact** → **Create/Update Contact**, and map:

GHL FIELD	WEBHOOK VALUE
First Name	<code>first_name</code>
Last Name	<code>last_name</code>
Email	<code>email</code>
Phone	<code>phone</code>
Lead Magnet (<i>custom</i>)	<code>lead_magnet</code>
Source Page (<i>custom</i>)	<code>source_page</code>
Interest Type (<i>custom</i>)	<code>interest_type</code>

Note on the sidebar forms. Those send a single combined `name` field instead of

`first_name` / `last_name`. Map `name` → First Name for those; it's imperfect but workable.

Tell me if you'd rather I split the sidebar forms into first/last to match — it's a quick change.

Deduplication: set the workflow to match on **email** so repeat downloaders update the existing contact instead of creating duplicates.

Step 4 — Branch by guide, tag, and deliver the PDF

Add + → **If/Else**. Create one branch per guide, each testing the **Lead Magnet** field.

Branch 1 — Buyer's Guide

Condition: `lead_magnet` is `central-indiana-buyers-guide`

Actions:

1. **Add Tag:** `Guide: Buyer's Guide`, `Buyer Lead`, `Website Lead`
2. **Send Email** — see template below
3. **Add to Workflow:** *Buyer Nurture* (Step 6)

Branch 2 — Seller's Guide

Condition: `lead_magnet` is `central-indiana-sellers-guide`

Actions: Tag `Guide: Seller's Guide`, `Seller Lead`, `Website Lead` → send email → *Seller Nurture*

Branch 3 — First-Time Buyer Checklist

Condition: `lead_magnet` is `buyer-checklist`

Actions: Tag `Guide: Buyer Checklist`, `Buyer Lead`, `First-Time Buyer`, `Website Lead` → email → *Buyer Nurture*

Branch 4 — Home Selling Prep Guide

Condition: `lead_magnet` is `seller-guide`

Actions: Tag `Guide: Seller Prep`, `Seller Lead`, `Website Lead` → email → *Seller Nurture*

Branch 5 — Everything else (the 200+ sidebar forms)

Condition: `lead_magnet` is empty

Actions:

1. **Add Tag:** `Website Lead`, `General Enquiry`
2. **Internal notification** to Daniel (email or SMS) — these are direct enquiries, not downloads, and deserve a faster human response than a guide download does
3. **Create Opportunity** in your pipeline at *New Lead*

The four delivery emails

Send each **immediately** (no delay). Subject lines and copy below — paste as-is.

1. Buyer's Guide

Subject: Your Central Indiana Home Buyer's Guide 🏡

Hi {{contact.first_name}},

Thanks for grabbing the Central Indiana Home Buyer's Guide – here it is:

→ Download the Buyer's Guide (PDF)

<https://indypropertyguide.com/resources/central-indiana-buyers-guide/download/Central-Indiana-Home-Buyers-Guide.pdf>

Inside: the full buying process step by step, every financing option including down-payment assistance, where to buy by county and school district, and how to write an offer that actually wins.

Two things that help most buyers right away:

- Get pre-approved before you tour – <https://indypropertyguide.com/services/mortgage-pre-approval/>
- Compare areas side by side – <https://indypropertyguide.com/compare/>

Question as you read it? Just reply here, or call/text me at 317-201-6323.

2. Seller's Guide

Subject: Your Central Indiana Home Seller's Guide 💰

Hi {{contact.first_name}},

Thanks for requesting the Central Indiana Home Seller's Guide – here it is:

→ Download the Seller's Guide (PDF)

<https://indypropertyguide.com/resources/central-indiana-sellers-guide/download/Central-Indiana-Home-Sellers-Guide.pdf>

Inside: how to price correctly from day one (the single biggest factor), what to fix and what to skip, how we market on the MIBOR MLS, and what your closing costs will actually look like.

When you're ready for a real number on your home – not an online estimate – I'll prepare a free comparative market analysis. No cost, no obligation:

<https://indypropertyguide.com/services/free-home-valuation/>

3. First-Time Buyer Checklist

Subject: Your First-Time Home Buyer Checklist ✅

Hi {{contact.first_name}},

Here's your First-Time Home Buyer Checklist:

→ Download the Checklist (PDF)

<https://indypropertyguide.com/resources/buyer-checklist/download/First-Time-Home-Buyer-Checklist-Indy-Property-Guide.pdf>

Print it, work down it, and you'll avoid the mistakes that trip up most first-time buyers in Indiana.

One thing worth doing today: check whether you qualify for Indiana down payment assistance. Most first-time buyers qualify for more help than they expect – <https://indypropertyguide.com/services/down-payment-assistance/>

Buying your first home is genuinely a big deal. If anything is confusing, call or text me – that's what I'm here for.

4. Home Selling Prep Guide

Subject: Your Home Selling Prep Guide 🏠

Hi {{contact.first_name}},

Here's your Home Selling Prep Guide:

→ Download the Prep Guide (PDF)

<https://indypropertyguide.com/resources/seller-guide/download/Home-Selling-Prep-Guide-Indy-Property-Guide.pdf>

It walks through exactly what to do before you list – in the order that returns the most per dollar. Most of it costs very little; the expensive renovations usually aren't worth it.

When you want to know what your home is realistically worth, I'll put together a free comparative market analysis: <https://indypropertyguide.com/services/free-home-valuation/>

Step 5 — Publish and test each branch

1. Toggle the workflow from **Draft** to **Publish** (top right). *Nothing runs while it's in draft.*
2. Test **all four** guides — submit each form with a real address you can check: - </resources/central-indiana-buyers-guide/> - </resources/central-indiana-sellers-guide/> - </resources/buyer-checklist/> - </resources/seller-guide/>
3. Test **one sidebar form** (any city page) to confirm Branch 5 fires.

For each, confirm: contact created → correct tags → correct email received → PDF link works.

Use a real inbox you can check, not a fake address — you want to see the email as a lead sees it.

Step 6 — Nurture sequences

Two separate workflows, each triggered by **Contact Tag added**.

Buyer Nurture — trigger: tag **Buyer Lead**

WHEN	SEND
Day 2	"How much home can you actually afford?" → mortgage calculator + pre-approval
Day 5	"Where should you buy?" → the Best-Of guides and comparisons
Day 9	"What first-time buyers miss" → down payment assistance
Day 14	Personal check-in from Daniel — plain text, no design, just "how's the search going?"
Day 21	Market update + invitation to schedule a call

Seller Nurture — trigger: tag **Seller Lead**

WHEN	SEND
Day 2	"What's your home actually worth?" → free CMA
Day 5	"The #1 mistake sellers make" → pricing guide
Day 9	"What to fix before you list" → staging + prep
Day 14	Personal check-in from Daniel
Day 21	"Thinking about timing?" → market update + call invite

Add an exit condition to both: remove the contact from nurture when they book an appointment or reply. Nothing damages trust faster than automated "just checking in" emails arriving after someone has already spoken to you.

Troubleshooting

SYMPTOM	LIKELY CAUSE
Nothing arrives in GHL	Workflow is in Draft , or the webhook URL doesn't match the site's
Contact created, fields blank	You skipped the Fetch Sample Request step, or custom fields aren't mapped
Every lead lands in the same branch	If/Else is testing the wrong field — it must test Lead Magnet , not Interest Type
Duplicate contacts	Set deduplication to match on email
Emails not sending	Sending domain not verified in GHL Settings → Email Services
Sidebar leads misrouted	Branch 5 must test lead_magnet is empty and sit last

One thing to know about the gate

The PDFs sit at public URLs and the thank-you page links to them directly, so someone can reach a guide without filling the form if they have the link. That's deliberate — it avoids broken-download complaints and feels less grabby.

If you'd rather it be strict, say the word and I'll remove the download link from the thank-you page so the **email becomes the only way to get the file**. That raises capture quality but does cost you some goodwill when email delivery is slow.

Adding a new guide later

When I build a new lead magnet, you only do three things:

1. Add an **If/Else branch** testing `Lead_magnet` = the new slug (I'll tell you the slug)
2. Add the **tags** for it
3. Add the **delivery email** with the new PDF link

The webhook, contact mapping, and nurture sequences are already built — nothing else changes.
